

“Teaching kids to be safe is more than just telling them to be safe”

Child Quest International and r.a.d.KIDS child safety education provides children with hope, options, and practical skills to **RECOGNIZE**, **AVOID**, and, if necessary, **ESCAPE** violence and abuse.

The r.a.d.KIDS advanced curriculum, based on accelerated learning theories, provides realistic safety plans and options enabling children to escape dangerous situations. Unlike many programs that show videos or tell children what to do, radKIDS actually shares plans and strategies, while practicing realistic physical skills to escape violence in a non-frightening manner.

In trying to find the right balance between not scaring children and giving them the knowledge of how to protect themselves, parents and caretakers are often at a loss as for what to do. **With Child Quest’s r.a.d.KIDS training, children become empowered**, learning to replace the fear, confusion, and panic of dangerous situations with confidence, personal safety skills, and self-esteem. Through this hands-on educational program the lives of children are being saved.

Child Quest and r.a.d.KIDS believe education and awareness are essential elements in keeping our youth safe. Throughout our dedicated alliance with r.a.d.KIDS, Child Quest has been able to share realistic and empowering safety education with thousands of children and families. **Heroes as young as five years old have successfully escaped the horrible realities of abduction, bullying, child abuse, sexual assault and manipulation.** In all these incidents, the children were able to use the tools, options, and abilities they acquired in r.a.d.KIDS classes to escape their attackers and return safely to their loved ones.

**Child Quest International
& r.a.d.KIDS Personal Empowerment Safety Education
Partnering to keep kids safer one child at a time!**
